Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted out audit in accordance with auditing standards generally accepted n the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. NOTES TO THE FINANCIAL STATEMENTS March 31, 2005

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The accounting policies of Millington Arbela District Library (Library)conform to accounting policies generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant policies used by the Library.

Reporting Entity

The District Library was formed effective August 2, 2004 by agreement between the Township of Millington and the Township of Arbela. From August 2, 2004 until a permanent seven (7) member board is elected, the District Library will be governed by a seven (7) member board appointed by Millington Township (four members) and Arbela Township (three members).

The accompanying basic financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. Accordingly, there are no component units to be included in the Library's financial report.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the non-fiduciary activities of the primary government. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenue includes: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

NOTES TO THE FINANCIAL STATEMENTS March 31, 2005

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Measurement Focus, Basis of Accounting and Financial Statement Presentation

District-wide Statements - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability ir incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Fund Based Statements - Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be "available" if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

The Library reports the following major governmental fund:

The General Fund is the Library's primary operating fund. It accounts for all financial resources of the Library except those required to be accounted for in another fund, of which there are none.

Assets, Liabilities and Net Assets or Equity

Deposits - Cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired.

Receivables and Payables - In general, outstanding balances between funds are reported as "due to/from other funds". Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as "advances to/from other funds".

NOTES TO THE FINANCIAL STATEMENTS March 31, 2005

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Capital Assets - Capital assets, which include property, plant and equipment, are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of the donation.

Property, plant and equipment are depreciated using the straight-line method over the following useful lives:

Furniture and equipment 5 - 10 years Library books, periodicals, and videos 5 years

Fund Equity - In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

NOTE 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY:

Budgetary Information - Annual budgets are prepared and adopted by the Library Board and subsequent amendments are approved by the Library Board. Unexpended appropriation lapse at year end; Encumbrances are not included as expenditures. During the current year, the budget was amended in a legally permissible manner. The budget has been prepared in accordance with accounting principles generally accepted in the United States of America.

NOTE 3 DEPOSITS AND INVESTMENTS:

Michigan Compiled Laws, Section 129.91, authorizes library units to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The Library is allowed to invest in bonds, securities, and other direct obligations of the United States or any agency or instrumentality of the United States; repurchase agreements; banker's acceptances of United States banks; commercial paper rated within two highest classifications, which matures not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions, which are rated as investment grade; and mutual funds composed on investment vehicles that are legal for direct investment by local units of government in Michigan.

NOTES TO THE FINANCIAL STATEMENTS March 31, 2005
